Lud-Additiv 1

Type: Additiv for hot lye baths. Date 16.01.2018

Application: Additive for CIP cleaning of tankers, tanks, pipes, as well as cleaning

within breweries, dairies and similar food industry. Excellent for bottle

washing as well as other CIP cleaning.

Properties: Lud-Addtiv 1 has excellent antifoam properties at temperatures above

45°C and binds metal ions like calcium, magnesium and iron and, thereby, prevents deposits. Lud-Additiv 1 dissolves labels and makes

the lye easier to rinse off.

Dosage: Added to lye baths at 0,1-0,8% up to 90°C

Declaration: 5 % or more, but less than 15 % Nonionic surfactant, phosphonic acid.

pH-value: Concentrated: 0,5

Specific gravity: 1,26 g/ml.

Storage: Store properly, out of reach of children, and not together with food, feed,

pharmaceutical products or the like. Store in sealed packaging in a ventilated place. Avoid extremely low or high temperatures. Do not store together with products containing chlorine. Protect against direct sun

and heat.

Approval: This product is following the general requirements of the legislation

regarding foodstuffs for products applied in food businesses. Meaning that when used under normal conditions and at normal dosage and under predictable conditions, this product will not discharge contents to

an extent providing any risk for human health.

Security: Please see the provided safety data sheet.
