

Kombinon® 129 CL

Type:	Kombinon® 129 CL is an Alkaline foam cleaning	Date: 06.02.2023
Application:	Applied when an efficient cleaning is needed. Do not mix with acid or acid-containing products.	
Properties:	Kombinon® 129 CL is very effective in removing fats, proteins and starches. In practice Kombinon® 129 CL ensures an excellent hygiene because of the chlorine content. Does not contain EDTA.	
Dosage:	Use concentration: 2-5%. Temperature: 0-50°C. Max. 40°C at high protein level. Action time app. 5 – 20 minutes. Rinse off before the foam is dry. After cleaning procedure, all surfaces intended for contact with foodstuffs must be rinsed thoroughly with clean water. Use with caution on aluminum and other non-alkali-resistant materials.	
Declaration:	Under 5 %: Anionic and nonionic surfactants, bleach with chlorine (hypochlorite), phosphonate and alkali.	
pH:	Concentrated: 13,6. 1% dilution: 12,0.	
Density:	Ca. 1,11g./ml.	
Storage:	Store properly, out of reach of children, and not together with food, feed, pharmaceutical products or the like. Store only in original packaging. Store frost free.	
Approval:	This product is following the general requirements of the legislation regarding foodstuffs for products applied in food businesses. Meaning that when used under normal conditions and at normal dosage and under predictable conditions, this product will not discharge contents to an extent providing any risk for human health.	
Safety:	Please see the provided safety data sheet.
